Utility Data Source: LTADD in conjunction with the Utility and KIA. Data is collected through fieldwork and ancillary sources. Data collected from 1999-Present. All data is to be considered approximate and is to be used for planning purposes only.

Corporate Boundaries are based on information on file with the KY Secretary of State's Office. They are a generalization of the corporate boundaries as they are known to exist and are to be used for general planning purposes only. The boundaries identified on this map have been based on record information from various sources and not on a survey of the corporate limits. These locations MUST NOT be relied on for purposes where the true boundary determinations must be performed in accordance with the requirements of KRS 322.

Highway information from LTADD and KYTC GPS Road Centerline Project. Data collected from 2001-Present.
